INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Camp Meeker Recreation and Park District
Camp Meeker, California

We have audited the accompanying financial statements of the governmental activities of Camp Meeker Recreation and Park District (a special purpose government) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of Camp Meeker Recreation and Park District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Camp Meeker Recreation and Park District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Auditor's report

The prior year summarized comparative information has been derived from Camp Meeker Recreation and Park District's financial statements for the year ended June 30, 2015 audited by another auditor as seen in the report dated January 12, 2016, the auditor expressed an modified opinion on those financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

CAMP MEEKER RECREATION AND PARK DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2016

As management of the Camp Meeker Recreation and Parks District (District) we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the District's financial statements (pages 10-22) and the accompanying notes to the basic financial statements (pages 23-34).

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$4,016,343 (net position). Of this amount, \$1,120,013 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The District's total net position increased by \$18,377. This increase is a result of revenues exceeding expenditures.
- As of the close of the current fiscal year, the District's governmental funds reported an ending fund balance of \$49,470, a net decrease of \$8,354 in comparison with the prior year.
- The District's total long-term liabilities decreased by \$115,409 during the current fiscal year.
- The District has a prior period adjustment during the current year to reflect a misstatement of fixed assets from the prior year.
- During the recent recession, tax revenue for the R&P (government fund) decreased by almost 2/3. The tax revenue has slowly been increasing as housing prices rise.
- Planned capital expenditures for the R&P (governmental fund) are lower than planned in the 15-16 budget as projects are still in process.
- Water (enterprise fund) receipts are lower than anticipated in 2016; however, a rate increase will be reviewed in 2017 budget year. Major increase in water operations expenses is occurring due to increase in water operator contract costs at contract renewal.
- The District is showing a prior period adjustment during the current year because of a due to/ from within funds that was not shown on the previous audit

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

CAMP MEEKER RECREATION AND PARK DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

Government-wide financial statements, continued. The statement of net assets present information on all of the District's assets and liabilities, with the difference between two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 10-13 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's funds are governmental funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District uses governmental funds to account for its activities. The district adopts an annual appropriated budget for its funds. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The basic governmental fund financial statements can be found on pages 14-22 of this report.

Notes to the basic financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 23-34 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$4,016,343 at the close of the fiscal year.

A large portion of the district's net assets (68 percent) reflects its investment in capital assets (e.g. buildings and improvements and equipment). The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

CAMP MEEKER RECREATION AND PARK DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

Governmental Funds, continued

As of the end of the current fiscal year, the District's governmental funds reported ending fund balances of \$49,470 a net decrease of \$8,354 in comparison with the prior year because of the prior period adjustment.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unreserved fund balance of the general fund was \$40,423. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents 56 percent of total general fund expenditures which were \$62,212.

Enterprise Funds

The focus of the District's enterprise funds is to provide information on near-term inflows, outflows, and balances of spendable resources of the water operations. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

General Fund Budgetary Highlights

Material differences between the original budget and the final amended budget can be briefly summarized as follows:

- More service and supply expenses anticipated
- More capital expenditures anticipated

Capital Assets

The District's investment in capital assets, as of June 30, 2016, amounts to \$4,524,131 (net of accumulated depreciation). This investment in capital assets includes equipment, buildings and improvements.

Additional information on the District's capital assets can be found on Note 1 on page 18 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

Debt Administration

At the end of the fiscal year the District had total long-term obligations of \$1,676,987 in note payable. During the fiscal year, the District's long-term debt decreased by \$115,409.

Economic Factors and Next Year's Budgets and Rates

The following factors were considered in preparing the District's budget for the fiscal year ending June 30, 2016.

- Water rate increases are expected for the 2016-2017 fiscal year

Request for Information

The financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Camp Meeker Recreation and Park District, Post Office Box 461, Camp Meeker, California 95419.

CAMP MEEKER RECREATION AND PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Camp Meeker Recreation and Park District (District) was formed by resolution of the Board of Supervisors of the County of Sonoma in September 1935 as a special district under and pursuant to provisions of the Public Resources Code, Div. 5, Chapter 4, Section 5780 (et sec) of the State of California. The District serves taxpayers and residents in a specific unincorporated area of the County of Sonoma, the boundaries of which are set by resolution of the Board of Supervisors. The District was further authorized as a "county water district" in April 1994 and was further awarded sewer powers in August 1999. The District's governmental powers are exercised through an elected Board of Directors.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Taxes, interest, and charges for services are accrued when receipt occurs within three hundred sixty-five days of the end of the accounting period, so as to be both measurable and available. Licenses, permits, fines, forfeitures, and other revenues are recorded as revenues when received in cash, because they are generally not measurable until actually received. Property taxes are accrued when their receipt occurs within sixty days of the end of the accounting period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims judgments are recorded only when payment is due.

Amounts recorded as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided and 2) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and cash equivalents

The District hold funds in an Insured Cash Sweep account and other funds that are all federally insured, except for a petty cash fund at local financial institutions. The District also holds an account with the County Treasury as required by their lender.

Receivables

Direct charges Receivable – Flat charges collected are apportioned to the District to supplement property taxes collected for operating costs. Not all of the assessments are collected as of June 30, 2015; therefore, the remainder of the uncollected assessments is considered direct charges receivable.

Property Taxes – The County of Sonoma is responsible for assessing, collecting and distributing property taxes in accordance with state law. Liens on real property are established January 1 for the ensuing fiscal year. The property tax is levied as of July on all taxable property located in the County of Sonoma. Secured property taxes are due in two installments, on November 1 and February 1, and are delinquent after December 10 and April 10, respectively. Additionally, supplemental property taxes are levied on a pro rata basis when changes in assessed valuation occur due to sales transactions or the completion of construction.

Since the passage of California's Proposition 13, beginning with the fiscal year 1978/1979, general property taxes are based either on a flat 1% rate applied to the 1975/1976 full value, or on one percent of the sales price of the property on sales transactions and construction after the 1975/1976 valuation. Taxable values on properties (exclusive of increases related to sales and construction) can rise at a maximum of two percent per year.

Special Taxes are a type of direct charge applied to each parcel of property within the District for a specific dollar amount and for a specific purpose.

On June 30, 1993, the board of Supervisors adopted the "Teeter" Method of property tax allocation. This method allocates property taxes based on the total property tax billed. At Year-end, the county advances cash to each taxing jurisdiction equal to its current year delinquent property taxes based on the total property tax billed. At year-end, the County advances cash to each taxing jurisdiction equal to its current year delinquent property taxes. In exchange, the county receives the penalties and interest on delinquent taxes when collected. The penalties and interest are used to pay the interest cost of borrowing the cash used for the advances.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Water fee receivables – The District reports receivables for all outstanding water charges. All are expected to be paid in full and therefore, there is no allowance for bad debt.

Capital Assets

Capital assets, which include land, buildings and improvements, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost of purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Buildings and improvements and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings and improvements	50
Water system and pipeline	75
Equipment	5 - 15

Net Position

Net position are classified into three components – invested in capital assets and unrestricted. These classifications are defined as follows:

- Invested in capital assets, net of related debt – This component of net position consists of capital assets, net accumulated depreciation and net of related debt if any.
- Unrestricted net position – This component of net position consists of net position that do not meet the definition of ‘restricted” or “invested in capital assets, net of related debt”.
- Restricted for debt fund- This component of net position consists of restricted funds that can only be spent for specific debt related purposes stipulated by external funder.

Fund Balance

The Governmental Accounting Standards Board (GASB) released Statement 54- "Fund Balance Reporting and Governmental Fund Type Definitions" (GASB 54) on March 11, 2009 which is effective for the District's fiscal year ending June 30, 2016 and 2015. This Statement is intended to improve the usefulness of the amounts reported in fund balance by providing more structured classifications. Under GASB 54, fund balance is reported under the following five classifications:

Non-spendable Fund Balance – consists of amounts that are not in a spendable form or are required to be maintained intact

Restricted Fund Balance – consists of amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation. The Restricted for State Programs and Restricted for Federal Programs balances reflect amounts restricted for specific state and federal programs as mandated by respective state and federal grant or funding agreements. The Restricted for Debt Service and Restricted for Capital Projects balances reflect amounts that are restricted for debt service and construction or other capital outlay projects.

Committed Fund Balance – consists of amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority and do not lapse at year end. The committed fund balance consists of general board reserves.

Assigned Fund Balance – consists of amounts intended for a specific purpose by a District official that has been delegated authority to assign amounts. This fund balance classification reflects funds assigned for capital projects.

Unassigned Fund Balance – consists of any remaining fund balance that has not been reported in any other classification.

For the purpose of fund balance classification, the District's policy is to have expenditures spent from the restricted fund balances first, followed in order by committed fund balance (if any), assigned fund balance (if any), and last unassigned fund balance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates; the financial statements include some amounts that are based on management's best estimates and judgments. The most significant estimates include the collectability of property taxes in determining the allowance for uncollectible taxes, depreciation lives and methods, and compensated absences. These estimates may be adjusted as more current information becomes available and any adjustment could be significant.

Summarized Comparative Financial Information

The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with governmental accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2015, from which the summarized information was derived.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

Budgetary revenue estimates represent original estimates modified for any authorized adjustments, which were contingent upon new or additional revenue resources. Budgetary expenditure amounts represent original appropriations adjusted by budget transfers and authorized appropriation adjustments made during the year. All budgets are adopted on a non-GAAP basis.

NOTE 3 DETAILED NOTES

Cash and Investments

The District maintains cash balances at Wells Fargo bank, a local financial institution. Wells Fargo serves as a depository for public funds and certain eligible securities as collateral.

1. Investment Policy: The District shall invest its moneys (other than its monthly operating fund) in savings accounts, certificates of deposit and federally insured banks and savings and loan institutions, or through the Sonoma County pooled investment fund and any other lawfully permitted investment through that fund, with the following qualifications:

- a. Treasurer. The responsibility for conducting the District's investment program and day to day investment functions resides with the District Treasurer.
- b. Authorized Depositories. Deposits shall only be made in qualified public depositories as authorized under State statute. In selecting financial institutions for the deposit or investment of District funds, the Treasurer shall consider the credit rating of the institutions.
- c. Maximum Term. The maximum Term of any deposit account shall be five (5) years.
- d. Maximum Investment in Single Institution. The maximum invested in any single bank or savings and loan institution shall be no more than the available insurance covering such deposits or Two Hundred Fifty Thousand Dollars (\$250,000.00), *whichever is lesser*. The amount so deposited shall not cause the total invested in any one (1) institution, including accrued interest, to exceed the available deposit insurance.
- e. Pooled Investment Fund. Investments made through the Sonoma County Pooled Investment Fund are not required to be insured.
- f. Brokered Certificates of Deposit. The District may invest funds in brokered certificates of deposit, provided that:
 - I. The funds are invested through a Federally licensed securities brokerage firm;
 - II. The brokerage firm maintains at least Five Hundred Thousand Dollars (\$500,000.00) protection through the Securities Investor Protection Corporation ("SIPC") on all District funds while in the control of the brokerage;

f. Brokered Certificates of Deposit, continued.

III. Funds invested in each certificate of deposit be only in the name of the District; and

IV. The amount invested in each certificate of deposit does not exceed the maximum insured limit through the Federal Deposit Insurance Corporation ("FDIC").

g. Waiver of Collateralization. To provide security to District funds in those situation where the District accounts with an FDIC insured bank or savings and loan exceed the FDIC insurance limit (e.g. due to interest re-deposited), the District is authorized to enter into a Waiver of Collateralization or Security Agreement with the lending institution, provided that:

I. The financial institution has committed to provide and maintain approved collateral for all deposits in excess of Two Hundred Fifty Thousand Dollars (\$250,000) in accordance with Government Code Section 53652; and

II. The financial institution remains fully insured under the FDIC for up to Two Hundred Fifty Thousand Dollars (\$250,000.00) of deposits by the District.

h. Other Investments. The District may, from time to time, make such *other* investments as are authorized by the California Government Code (as amended or replaced); provided that prior to making any investments not previously authorized and set forth in this investment policy, that the Board of Directors shall review the type of investment and adopt an amendment to this investment policy authorizing same.

2. Investment Transaction. Every investment transaction must be reviewed and authorized by the Board of Directors and documented by the Treasurer of the District.

3. Monthly Report. The Treasurer shall submit a monthly report to the Board of Directors in accordance with the requirements of Government Code Section 53646. All such reports shall include a comparison with the report last generated and include, in addition, the following elements:

- a. Type of Investment;
- b. Institution;
- c. Date of Maturity;
- d. Amount of Deposit;
- e. Rate of Interest; and
- f. Statement relating to the Report of the Investment Policy.

4. Withdrawals and Transfers.

- a. Investments. Any withdrawal, renewal or transfer of funds held as investments pursuant to this investment policy shall require approval of the Board of Directors and, except with respect to a roll-over or renewal, the signature of two (2) persons authorized by the Board of Directors.
- b. Operating Account. All withdrawals, transfers and checks drawn on the District checking accounts shall require the signatures of two (2) persons authorized by the Board of Directors of the District.

5. Temporary, Non-Insured Investments. The District shall be allowed to deposit funds in excess of the Two Hundred Fifty Thousand Dollars (\$250,000) insurance limit set forth in this investment policy into the district's operating, checking account for a period up to four (4) months each, pending the utilization of the proceeds received from the County of Sonoma on the annual Water Charges collected from the County Tax Rolls. Due to the large size of these annual payments, and due to the fact there is often a need for the prompt expenditure of all or large parts of such payments, it is impractical for short-term periods to place such funds in insured savings deposit accounts.

6. Signatory Authorization. Once annually, following the adoption of the District's annual budget (or additionally upon the creation of a new investment), the Board of Directors shall, by resolution, authorize specific persons among the Board and staff to be the signatories on all investment accounts of the District. Such persons shall not consist of the persons handling the day-to-day financial operations of the District. All District checks or warrants shall be signed by two authorized persons. The resolution shall further provide that, until a further resolution is adopted, only the named signatories shall be permitted to authorize deposits, withdrawals and transfers of District monies.

- a. Within thirty (30) days of the adoption of the authorizing resolution or creation of a new investment, a copy of the resolution establishing the signatories shall be delivered to each financial institution in which the District has any investment with a request that the institution acknowledge receipt of such resolution.
- b. In order to carry out the provisions of this Section 6, the District Secretary shall prepare a cover letter to the financial institution, to be signed by the Chairman of the Board, enclosing a copy of the current Board resolution authorizing only certain signatories on the account or investment. The letter shall request that the financial institution respond in writing and provide the following information directly to the Chairman at his/her home mailing address:

6. Signatory Authorization, continued.

- I. Written verification of the financial institution's receipt of a copy of the current Board resolution authorizing certain signatories on the type of account invested with the financial institution; and
 - II. A photocopy of the record of the financial institution which shows the actual signatures of the persons authorized to make withdrawals and transfers on the accounts or investments of the District with that institution.
- c. Upon receipt of the financial institution's written reply, the Chairman of the board shall present such reply at the next Board meeting to verify all signatures on the accounts or investments. The originals of the replies of the financial institutions shall be maintained in a separate file with the District.

7. Bonding. All employees of the District who have been authorized to co-sign payments, transfers, deposits and/or withdrawals of District funds shall be bonded in an amount determined by the Board of Directors by an insurance company rated A or better in Best's Guide. The bonding of Directors under the insurance policy with SDRMA is deemed to be a sufficient performance bond as required by Public Resources Code 5784.9(e).

8. Internal Controls. By this Policy, the District has adopted in writing such internal controls as the Board reasonably believes is reasonably required to prevent loss of public funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the District.

- a. The Board of Directors shall on an annual basis establish a process for independent review of these controls by an external auditor in conjunction with the regular audits of the District's accounts and records pursuant to Public Resources Code Section 5788.25(a) and Government Code Section 26909.

9. Conflicts of Interest. Officers, staff and Board members involved in the investment process shall refrain from personal business activity that could conflict with the proper execution of the District's investment program or which could impair their ability to make impartial investment decisions.

- a. Employees, officers and Board members shall disclose to the District Secretary any material financial interests in financial institutions that conduct business within their jurisdiction, and they shall further disclose any large personal financial or investment positions that could be related to the performance of the District. These disclosure requirements shall include complying with the disclosure and disqualification requirements as established by the Fair Political Practices Commission and Conflict of Interest Codes of the District.

10. Custodial Credit Risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Governments Code and the Treasury Pool's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits and securities lending transactions:

- a. The California Government Code requires that a financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by depository regulated under state law. The market value of the pledge securities in the collateral pool must be equal at least 110% of the total amount deposited by the public agencies.
- b. The California Government Code limits the total of all securities lending transactions to twenty percent of the fair value of the investment portfolio.
